SUMMARY

Motivated and detail-oriented full-stack developer with hands-on experience in building scalable web applications and cloud-based solutions. Proficient in front-end technologies (HTML, CSS, JavaScript, React), and experienced with back-end technologies using Node.js and SQL. Skilled in designing and implementing Entity Relationship Diagrams (ERDs), managing version control with Git, and deploying applications on cloud platforms like AWS. Passionate about learning new technology and contributing to high impact projects.

EDUCATION

Diploma in Software Development

Bow Valley College, Calgary. Alberta.

Relevant Coursework:

Web Development | Object Oriented | Database Management | Agile Project Management (Scrum)
UI/UX | Algorithm & Data Structures

TECHNICAL SKILLS

Languages: C++, C#, Python, JavaScript, HTML, CSS, PHP, Kotlin.

Frameworks/ Libraries: React.js, Node.js, Express.js, jQuery

Tools: Azure, GitHub, AWS, Postman, Visual Studio, Trello, GitHub, Android Studio, Docker.

Databases: SQL, NoSQL (MongoDB), SQL Server

Concepts: RESTful APIs, Scalable System Design, Agile methodologies, Database optimization, Web & Android Development.

Professional Experience

Web Developer Intern

Rukbe Tech – Calgary, AB

Jan 2025 – Apr 2025

- Designed and developed a web application to enhance UI/UX based on identified usability challenges in the existing design.
- Created Low-Fidelity and High-Fidelity wireframes using Figma to define consistent design patterns.
- Worked with a team of 5 to successfully deliver the project on time, meeting all milestones and deadlines.

- Conducted market and user research to guide feature improvements and increase accessibility.

Sales and Customer Service Representative

BonnyBest Computer Services – Nigeria

Apr 2022 – Jan 2023

- Delivered technical support and product guidance, resolving customer issues with a high satisfaction rate.
- Supported sales operations and contributed to exceeding monthly targets through effective customer engagements.
- Collaborated with the sales team to optimize processes, consistently exceeding sales targets and help boost client retention.

Relevant Projects

Login System Web App

PHP, SQL

- Built a secure MVC-based login system with role-based access and session management.
- Resolved authentication issues and ensured appropriate redirection for unauthenticated users.

[GitHub Repository](#)

Connect4 Console Game

C#

- Developed a playable two-player console game with computer opponent logic.
- Contributed to feature enhancements and bug fixes through collaborative development.

[GitHub Repository](#)

Coworking Workspace Management System

HTML, CSS, JavaScript, Node.js, MongoDB Atlas

- Built a full-stack application with secure user authentication and CRUD functionality.
- Designed a responsive front end and implemented a robust backend using Node.js and MongoDB Atlas.
- Collaborated with UI/UX designers to ensure usability across devices.

[GitHub Repository](#) | [GitHub Repository \(Backend\)](#)

E-commerce App

Kotlin, Android Studio

- Built an Android-based shopping app featuring product listings, cart functionality, and user authentication.
- Designed a modern, responsive UI using Material Design principles.

[GitHub Repository](#)

Personal Website

HTML, CSS, JavaScript

- Created a personal portfolio to showcase skills and projects.
- Integrated Google Sheets to track contact form submissions.

[Live Demo](#)

Weather Website

HTML, CSS, JavaScript

- Developed a weather app fetching real-time data using a public API.
- Designed a clean, responsive UI for multi-device support.

[Live Demo](#)

KWIZMI Quiz App

C#, Windows Forms

- Designed a quiz application with dynamic question loading and result tracking.
- Used object-oriented principles for modular code design
